

**We are here to scale-up your
challenging chemistry.**

Our 20,000 sq. ft. facility includes:

- 200L, 300L, 400 L REACTORS
- 5 and 10 GALLON HYDROGENATORS
- 30" DIAMETER CENTRIFUGE
- 5m² and 8m² FALLING FILM EVAPORATORS
- WIPED FILM DISTILLATION @4", 6", and 8"

DIAMETERS

**WE BRIDGE THE CHEMISTRY TO
SUCCESS.**

BIOLOGICAL DRUG INTERMEDIATES

HIGH PURITY UNIQUE MONOMERS

COMPLEX DYES

SPECIALTY BULK CHEMICALS

CRO/CMO

*We provide the best quality
product and service to every
customer.*

CONTRACT RESEARCH

- Experts in challenging chemistry
- Custom synthesis of complex molecules
- Fulltime equivalent research contracts available

PROCESS DEVELOPMENT

- Design of reaction route from milligram to kilogram scale
- In-house capability to design, engineer, improve or modify processes
- Finalize batch record for manufacturing

CONTRACT MANUFACTURING

- >1000kg/year production
- Assured by Quality Control
- Manufactured product catalog

“We invent what we can not find.”

-Dr. William A. Boulanger, CEO

WHY CHOOSE OBITER?

- ✓ We deliver as the last resort for many customers' needs.
- ✓ We scale-up challenging chemistry.
- ✓ We integrate chemistry and engineering to solve unique and challenging problems.
- ✓ Our in-house machine shop and glass blowing experience allows for custom equipment design and implementation.
- ✓ We guarantee above 98% customer satisfaction.
- ✓ We have competitive rates and assured quality.
- ✓ We endeavor to never miss a deadline.
